

ATTENUATOR - LC/UPC FEMALE - MALE

Fixed Attenuator family offers high performance of variously fixed attenuation for industrial standard connections. Wide attenuation range, extremely low return loss, polarization insensitive, and excellent repeatability. Our attenuator complies with industry green initiative such as RoHS.

FEATURES & BENEFITS

- Wide attenuation range
- Low return loss
- Low PDL
- Polarization insensitive
- Various connector type
- Highly reliable

APPLICATIONS

- Optical telecommunication network
- CATV network
- Testing device accessory

TECHNICAL SPECIFICATIONS		Min	Typical	Max	Unit
Operating Wavelength Range		1240~1650			nm
Return Loss	PC Type	50			db
Operating Temperature		-40		+85	°C
Tolerance		DB≤10 dB-±0.5&DB≥10 dB=±0.75			
Storage Temperature		-40		+85	°C
